America's Original Superfruit®

The cranberry is one of three commercially cultivated fruits native only to North America. They are grown across the United States in Wisconsin, Massachusetts, New Jersey, Oregon and Washington. They are also grown in Michigan, Minnesota and Rhode Island.

Research shows convincing evidence that the tiny cranberry provides big health benefits. A serving of fresh cranberries is a good source of vitamin C and fiber, provides antioxidant polyphenols, and contains only 1 mg of sodium.^{1,2} Cranberries also may help maintain urinary tract health.^{3,4,5}

A close-up photograph of a hand placing a fresh cranberry onto a small round bread slice. The bread slice is topped with a layer of white cream cheese. Several other similar bread slices are scattered around on a wooden surface. In the background, there are some green herbs, possibly thyme, and a white cloth with a green pattern. The overall scene is festive and suggests a holiday meal preparation.

"THE HOLIDAYS ARE A TIME TO SLOW DOWN, COME TOGETHER WITH FAMILY AND FRIENDS AND ENJOY WHAT'S REALLY IMPORTANT. I LOVE INCLUDING FRESH CRANBERRIES IN MY CELEBRATIONS BECAUSE THEY ARE SO VERSATILE AND EASY TO INCORPORATE INTO RECIPES AND DECORATIONS."

Sweet Potato & Cranberry Stacks

An eye-catching side dish, these roasted sweet potato stacks with cranberry butter and layers of cranberry relish are a delicious twist on the traditional hasselback potato.

Servings: 6

Total Time: 45 minutes

Ingredients:

- 3 large sweet potatoes
- ½ stick butter, cut into cubes
- ¼ cup extra virgin olive oil
- ½ cup fresh cranberries, divided
- 2 cloves fresh garlic, chopped
- 1 teaspoon salt
- ⅛ teaspoon freshly ground black pepper
- 3 sprigs fresh rosemary, for garnish

Tools

- muffin or cupcake tin*
- chef's knife*
- cutting board*
- food processor*
- rubber spatula*
- pastry brush*
- optional: skewers*

Directions:

Step 1: Preheat oven to 450 degrees F.

Step 2: Wash potatoes and cut off ends.

Step 3: Slice potatoes thinly (approximately ¼-inch thick slices), and stack vertically as you cut to keep slices in order. This helps keep the shape of the stack and avoids uneven layering of small slices mixed with large slices. Divide slices to make 6 stacks.

Step 4: To make cranberry butter, add butter, olive oil, ¼ cup cranberries, garlic, salt and pepper to a food processor. Pulse to combine. Butter is done when pink with flecks of cranberries.

Step 5: Clean food processor and pulse remaining ¼ cup of fresh cranberries approximately 7 times to create a finely chopped relish texture. Scrape down sides of food processor as necessary to completely chop all cranberries. Set aside.

Step 6: Using a pastry brush, brush cranberry butter onto all surfaces of the sweet potato.

Step 7: Build stacks upright as straight as possible in each muffin tin space, adding cranberry relish between every 2 or 3 slices of sweet potato. Spread relish evenly across the surface of potato slice.

Step 8: To add extra stability to stacks during cooking, pierce with skewer.

Step 9: Cook for approximately 25 minutes, or until the stacks are easily pierced with a knife.

Step 10: Top with fresh sprigs of rosemary. Serve immediately.

Cranberry Eucalyptus Wreath

A festive welcome for your guests, this seasonal wreath has a modern flair with subtle touches of cranberry for a pop of color.

Prep Time: 45 minutes

Supplies:

- 1 roll thin gauge green floral wire
- needle nose pliers
- 16-inch grapevine wreath (oval or round)
- blue painter's tape or brightly colored washi tape
- 1 ½ medium bundles eucalyptus
- 1 ½ cups fresh cranberries
- kitchen shears
- wreath door hanger

Optional

- heavy duty neutral-colored tape or masking tape, or lighter-color gaffer tape
- paper sign (printed or hand-written)

Directions:

Step 1: Cut 20-30, 5-inch lengths of floral wire. More wire equates to more cranberry density within the wreath.

Step 2: Use your hands or needle nose pliers to wrap one end of the wire securely to the grapevine wreath. Do this to with all the wires you cut, spaced throughout the wreath. Leave the tails of the wire pointing straight up on one end and tape ends with a flag of brightly colored tape. This is where the cranberries will be wired after adding the eucalyptus, so you won't miss the wires and they're securely fastened.

Step 3: To add eucalyptus, add larger stems to the grapevine wreath flowing in the same direction. Cut down any stems necessary to create the desired look of fullness. Continue to insert eucalyptus stems in the same direction.

Step 4: Once desired fullness is achieved, cut the ends of the wires with the flags and insert a cranberry. For extra security, and especially for cranberries pointed downwards, push cranberries all the way through the wire and use needle nose pliers to hook the end to look like a stem and keep it from slipping off. Do this process one by one.

Step 5: Use wreath door hanger to hang wreath.

Optional: To add a sign, cut paper to desired shape and size. Use heavy duty, neutral-colored tape to adhere floral wire to each end of the sign, and wire to the wreath.

STEP 5

Cranberry Rope Garland

A fun twist on a traditional garland, fresh cranberries are strung on twine and take new shape draped stylishly across a mantle or staircase. Make at Friendsgiving for a fun party craft. More hands equals less prep time!

Prep Time: 1 hour for 2 medium-length (about 3-4 feet) single garlands

Supplies:

- twine
- 18 fresh cranberries per foot of garland (about 150 cranberries for two, 4-foot garlands)
- yarn needle (#16)
- thin gauge floral wire
- wire cutter or heavy duty kitchen shears

Optional

- needle nose pliers

STEP 2

STEP 4

STEP 5

Directions:

Step 1: Cut twine to desired garland length. Double knot the terminating end of the twine and thread through a yarn needle. Note that final multiple garland draping will shorten the overall length of the garland, so cut more than you think you need.

Step 2: Pierce and thread approximately 18 cranberries per foot of desired twine. Continue to thread garland until it reaches desired length.

Step 3: To finish garland, double knot and lay on floor or table in a straight line so it does not tangle.

Step 4: Repeat process to create two garlands. Lay second garland below first garland on the table or floor. To create draping, connect the bottom garland to the top with thin gauge floral wire. Twist to connect the twine between cranberries in one touchpoint using needle nose pliers, or by hand.

Step 5: Hang on banister, door or mantle.

Cranberry-Filled Candle Holder

An elegant way to light your fall tablescape, this easy-to-make cranberry and gold candle centerpiece is the perfect subtle touch to Friendsgiving décor.

Total Time: 35 minutes

Supplies:

- 7 cups fresh cranberries (depending on size of container, 7 cups needed for vase pictured here)
- newspaper
- gold spray paint
- trough-style clear vase of choice (pictured here: 13.25 inch length x 4 inch depth x 3 inch wide oval)
- candles: 2-3 taper or pillar
- hot glue gun

Directions:

Step 1: Take 1 cup of cranberries outside and spread out on newspaper. Be sure they are not touching. Spray paint gold. Allow spray paint to dry and roll cranberries to expose the unpainted side. Spray paint and let dry for 10 minutes.

Step 2: If using pillar candles, decide candle placement within glass container. Use a hot glue gun to place dots of glue on the base of the candle and adhere to the inner base of the container. Skip this step with taper candles.

Step 3: Fill the vase with a mix of painted and unpainted cranberries around pillar candles. If using taper candles, fill vase a third of the way with cranberries, place pillar candles, and continue to surround and fill with cranberries.

Step 4: Place on table and light candles.

TIP: THIS DIY CAN WORK WITH WHATEVER GLASS CONTAINERS YOU HAVE ON HAND!

- pen or printer
- scissors
- single hole punch
- large needle

Step 2: Cut out name tag with scissors in desired shape.

Step 3: Hole punch the card at the top or a selected corner.

Step 4: Pierce a needle through the cranberry (length-wise) to create an opening for the rosemary sprig.

Step 5: Strip lower leaves of the rosemary to expose the woody stem and insert through the cranberry opening.

Step 6: Cut approximately 14 inches of twine (dependent on size of napkin and folding method) and wrap the twine around the napkin and through the hole punched tag. Tie a knot or bow.

Step 7: Place the rosemary sprig and cranberry underneath the tag and twine, on top of the napkin.

Step 8: Place the finished decoration onto a place setting.

Fall Tabletop Cranberry Garland

A low fall centerpiece that allows for conversation, this tabletop garland is easy to personalize based on what's available locally and seasonally with a dark greens base, rustic wheat layer and impact florals.

Prep Time: 1 ½ hours

Supplies for one 4-foot long garland:

- floral cutters or kitchen shears
- thin gauge floral wire on a paddle
- wire cutters
- 2 cups fresh cranberries
- glue gun
- wooden skewers, disposable chopsticks or floral stakes

Optional

- individual floral water tubes

To make a garland that works with what you have, pick at least one type of greenery or floral aspect for each of the three below categories:

Dark Color Base: (used here) 3 bunches eucalyptus and 1 bunch magnolia leaves

Light Color Base: (used here) 1 bunch wheat

Impact Florals: (used here) 1 bouquet dahlias and 1 bunch roses

Directions:

Step 1: Prepare dark and light base greenery by cutting into smaller branches with exposed base stem.

Step 2: Begin building garland by taking several small base greens in hand in a small bundle, building to stagger and lengthen the bundle. Once a small bundle is created, use the paddle floral wire to wrap the base of the stems to the string. Wrap tightly around the greenery bundle base several times and begin to create your next base bundle. Do not cut the wire.

Step 3: Continue to repeat above steps until you reach almost the end of the garland. For the final garland bundle, rotate it to go the opposite direction to cover the stems of the previous garland bundle. Continue wire wrapping to secure, then cut wire.

Step 4: To create cranberry clusters, take a handful of cranberries (approximately 5-7) and use a glue gun to glue together in a cluster. Add hot glue to one end of a green floral stake, chopstick or wooden skewer, and insert into the center of the cranberry cluster. Make several and set aside to cool. Add into garland, evenly distributing throughout for desired appearance.

Step 5: To add in larger floral pieces, cut close to the head of the flower and place throughout the garland as desired. To add statement greenery like magnolias or wheat, cut stems close to head and place throughout garland as desired. Do this close to the time of your event to keep flowers as fresh as possible. To extend the life of flowers, insert individual water tubes.

Ideas for Leftover Cranberries

Fresh cranberries are a treat in peak season, but with a little ingenuity they can be used throughout the year to cook with and add to favorite dishes. Here are some ideas on what to do with your extra fresh berries:

Freeze them. It's as easy as placing fresh cranberries in the freezer in their original packaging. Frozen cranberries can last in the freezer for up to one year. And, most fresh cranberry recipes work just as well with frozen cranberries – no need to thaw them before using!

Jam it up. Fresh cranberries can easily be made into jam, and should be enjoyed within one year if using home canning techniques. Without home canning techniques, cranberry jam should be kept in the refrigerator and eaten within three weeks.

Ice them. Turn fresh cranberries into decorative ice cubes to liven up teas and drinks. Place 2-3 cranberries into each ice cube mold on an ice cube tray, fill with water and freeze until solid. The berry-filled ice cubes make for visually stunning drinks.
